- Developing and Leading Teams
- Inventor & Technologist

Appendix: Selected Projects

- Human Machine Interface
- FlowDrive
- Multimodal Driver Input & Reasoning
- Spatial Audio Alerts
- Ghost Autonomy Website

Hi, I'm Mario!

Executive designer and inventor with over **12 years of experience** transforming visions into cutting edge technology solutions.

Intro

In my journey as a designer in Silicon Valley, I have been a **key founding member at several startups**, leading cross-functional teams to turn **visionary ideas into scalable, user-centric products**.

My expertise spans strategic **business leadership, creative direction, and technical problem-solving**. It has enabled me to deliver results quickly and effectively foster collaboration across design, engineering and product teams.

While I served as Head of Design at Ghost Autonomy, I spearheaded the development of **7 patents in AI, Machine Learning, Human-Machine Interfaces, and automotive safety**, showcasing my ability to create novel solutions in the frontier of technology products.
